

EZ701-3W

DEVICE DESCRIPTION

The **EZ-701-3W** is our most advanced fleet tracking device incorporating **4G technology**, with the abbreviation 3W representing three wires (power, ground and ignition). The device is a universal solution and includes a wiring harness that will support the monitoring of multiple inputs for PTO (power take off). It is built with the quality components needed to meet the high reliability and the large amounts of data required to meet the needs ofcontinuousfleet tracking.

KEY FEATURES/BENEFITS

- > Reports once a minute with locations every five (5) seconds delivered with minute interval report.
- ➤ Internal dual cellular and GPS satellite antennas reduce installation time, improves cellular signal reception, and better supports a covert installation.
- ➤ Internal battery back-up allows us to report even if the device power is compromised, tampered with or disconnected.
- Capable of storing and forwarding all satellite tracking data (once the device recognizes cellular connectivity) up to 2,000 data points (which is critical if and when any vehicle travels beyond a cellular network).
- ➤ Includes "smart power management" which allows the device to recognize when a vehicle is turned off which triggers the device to go into a sleep mode, which will significantly reduce the possibility of the device causing any vehicle battery issues.
- ➤ Utilizes the Category 1 LTE 4G cellular network to transmit all the vehicle generated data.

TARGET MARKETS

This product will support nearly all general business needs, especially those that want the visibility of vehicle PTO (power take off) activity such as identifying when a snow plow or truck bed's position is raised or lowered or when any secondary engine is engaged. This device also supports Tow Alert Notifications.

EZ701-3W

DEVICE SOFTWARE HIGHLIGHTS

- Web based; providing access to your fleet information limited only by your access to the internet; including a mobile viewer application that will auto size for smartphone or tablet
- > Fleet tracking updates every 60 seconds
- ➤ Supports "closest vehicle" worker dispatch functionality. This provides accurate ETAs, reduces wasted time between jobs and improves customer relations.
- Provides real-time location, speed, heading, stopping and mileage reporting.
- > Track maintenance schedules based upon real time mileage information.
- > Provides hard braking and hard acceleration information to help eliminate unsafe driving behavior.
- > Monitor idling to reduce fuel and unnecessary wear on your vehicle.
- Provides exact arrival and departure data relative to any task, which will increase billing accuracy and reduce billing write-offs and disputes.
- > Provides the ability to create customized zones (landmarks) and receive data relative to the entering, exiting and time spent within each customized zone.
- ➤ Mapping with Google Street View and Google Earth integration.
- > Unlimited users (no additional software license fees or charges).
- Custom Map Icons (including the ability to input actual photos of each of your vehicles).
- Provides 24 months of historical tracking data on the reporting suite. Visually, you have access to 6 months data via our mapping tab.

DEVICE SPECIFICATIONS

Size: 103mm x 53mm x 18.5mm

Weight: 72 grams

Operation Temp. Range:-40c to 85cWireless Specs: LTE Cat 1. LTE band 4, 13 (Verizon) LTE band 2,4,12 (T-Mobile) Power Consumption:

-When sleeping: 6mA@12VDC -When tracking: 70mA@12VDC Operating Voltage: 6-36 VDC Location Accuracy: +/-2.0m CEP Internal Back-up Battery

-When sleeping – approx. 8 hours*

-When tracking – approx. 2 hours* Certifications: FCC, Verizon

Verizon Wireless
Device LED's:

-Amber LED for cellular connectivity -Green LED for GPS location lock

We stand behind our equipment and software solution with our satisfaction guarantees

Lifetime Device Warranty – If at any time during the course of normal use your device stops working (excluding physical or water damage) we will provide a replacement device at no charge.

30-Day Money-Back – If at any time within 30 days after a device begins tracking you are not completely satisfied with your purchase or our software solution for any reason, we will give you a refund on the original purchase price of your device. (Not applicable with 3 year bundled plans.)

^{*}Times vary based on coverage and where vehicle is parked
